Fall 2020 and Beyond

A Plan for Uncertain Times
What We Know

Los Angeles is expected to remain on safer-at-home and social distancing restrictions into and possibly throughout July.

There is a chance that we will see our region open up in August.

Education has been forever changed by developments surrounding COVID-19, and the 2020-2021 school year will require adaptation and innovation.
Should We Consider Opening

Should you consider opening?

- Will reopening be consistent with applicable state and local orders?
- Is the school ready to protect children and employees at higher risk for severe illness?
- Are you able to screen students and employees upon arrival for symptoms and history of exposure?
Adjustments for First 3 Conditions

Q: Will reopening be consistent with applicable state and local orders?

A: We will constantly monitor and adjust the reopening plan to be compliant.

Q: Is the school ready to protect students and employees at higher risk for severe illness?

A: The option to stay home; providing protective equipment; etc.

Q: Are you able to screen students and employees upon arrival for symptoms and history of exposure?

A: Multiple entry-points; forehead scanners; self-reported exposure inventory.
Meeting Safeguards

Are recommended health and safety actions in place?

- Promote healthy hygiene practices such as hand washing and employees wearing a cloth face covering, as feasible.
- Intensify cleaning, disinfection, and ventilation.
- Encourage social distancing through increased spacing, small groups and limited mixing between groups, if feasible.
- Train all employees on health and safety protocols.
Campus-wide Adaptations

**Directional movements** - Hallways will be designated for specific movement - similar to what some grocery stores have implemented.

**Increased cleaning** - Increase daytime custodial staff; attention to high-traffic surfaces. State-of-the-art electrostatic disinfectant machines.

**Additional hygiene supplies** - Touchless hand-sanitizer dispensers in each classroom.

**Lunch alternatives** - Prepackaged meals will be available; delivery and multiple pick-up locations

**Facial coverings** - Facial coverings will be required as part of the dress code.
Is ongoing monitoring in place?

- Develop and implement procedures to check for signs and symptoms of students and employees daily upon arrival, as feasible
- Encourage anyone who is sick to stay home
- Plan for if students or employees get sick
- Regularly communicate and monitor developments with local authorities, employees, and families regarding cases, exposures, and updates to policies and procedures
- Monitor student and employee absences and have flexible leave policies and practices
- Be ready to consult with the local health authorities if there are cases in the facility or an increase in cases in the local area
Plan for If and When Students or Faculty Get Sick

Students and employees who feel sick should stay home.

A student or employee who is diagnosed with COVID-19 will be required to stay home until they are cleared to return by a medical professional.

If a student or employee is diagnosed with COVID-19, the school may revert to fully online learning within 24 hours of notification and remain online for a period of 2 weeks.

All school-related activities will be cancelled, postponed, or converted to an online venue during the 2-week closure.
Innovation #1 - Later Start Date

The 2020-2021 school year for Crespi Carmelite High School could begin with a later start date (late August/early September).

A later start dates offers the following benefits:

● A better chance for a return to a fully on-campus educational program.
● The Crespi Community will have the month of August to adapt to life after quarantine.
● More time to plan and prepare for the additional requirements of reopening in the midst of the pandemic.
Innovation #2 - A Plan for All Seasons

- Fully Online
- Hybrid
- Fully On Campus
Fully On Campus
Traditional and Mostly Familiar

A return to what has worked.

Pending a full lift of social-distancing guidelines.

Cleaning standards will be enhanced.

Facial coverings likely to be maintained.
If we are unable to meet the standards for reopening, school can be offered fully online.

Crespi Connect as Learning Management System.

Zoom for synchronous learning.

A fully online approach could benefit from further online innovations - synchronous vs. asynchronous.
Hybrid Program

Online and On Campus

Representing School Colors:

On “Brown Days,” students with last names A-M will report to class on campus while students with last names N-Z attend via distance learning.

On “Gold Days,” students with last names N-Z will report to class on campus while students with last names A-M attend via distance learning.

Alternating Mondays and Fridays will be fully online with classes continuing via distance learning.
## Hybrid Program (dates subject to change)

Hybrid Program

Curriculum and instruction will be differentiated for 3 delivery platforms: live in-person; live online; and asynchronous distance learning.

If group size limits are smaller, the hybrid plan can be altered to accommodate smaller on-campus groups.

Rooms will be equipped with dedicated teleconferencing hardware to facilitate hybrid learning sessions.
Sports and Co-Curricular Activities

We aim to offer school-related activities according to the conditions permitted.

We aim for our sports programs to train, practice, and compete as feasible following safety guidelines.

Interscholastic competition will be governed by the guidelines of CIF.
Key Takeaways

Crespi Carmelite High School will be offering a Catholic and Carmelite college-preparatory education for the 2020-2021 school year.

We believe a strength of our educational program is the on-campus experience, and we are committed to doing everything we can to have our students participate in on-campus activities.

No matter what guidelines or restrictions are in place, we will rise to the challenge together.
Questions, Concerns, Considerations.
